

# Technology Improvement Project

## IRCS Elementary School

## TIP

IRCS Elementary  
Parent Meeting

February 2, 2012  
Fellowship Center  
7:00 p.m.

*This document was created using an iPad.*

Since 1984, the Elementary program at Indian Rocks Christian School has been partnering with parents to provide children with a Christ-centered education. Today, our teachers are delivering the highest quality Elementary program we have ever offered. To serve our educational needs as we instruct our students, and as we continually improve our programs, we desire to make specific technology improvements.

IRCS believes that technology has become an important part of life and learning. Our **Technology Improvement Project** seeks to dramatically enhance our methods of education through the use of technology.

Part of the **TIP** will fund a portable 24 student iPad lab. We want to encourage at least one parent from every family attend a special *Elementary Parent meeting on Thursday, February 2*. Further details of the **TIP** will be presented at the February 2 meeting. A representative from **Apple** will also be in attendance demonstrating how the iPad will enhance our elementary learning environment.
