## IRCS Summer Reading Challenge

When a child reads over the summer, they maintain core-reading skills learned during the school year. IRCS wants to help our students retain their skills learned throughout the year and become more motivated to read books of all types. By simply logging the minutes read over the summer break, all IRCS students will have the opportunity to earn a reading reward when they meet a reading goal level. If a student commits to reading twenty minutes a day, he or she can easily reach the three reading goals and earn each of the reading rewards for our summer reading challenge.

## **Grand Prize**

Be one of the top 10 summer readers and you will be invited to the IRCS Library Rocks Lunch with Mr. McLeod. This will be a fun time as we celebrate each student's summer reading accomplishments.
